Portfolio: https://portfoliosarthak123.netlify.app

SKILLS

- **Languages**: Java, Python, PHP, JavaScript
- **Web Development:** HTML, CSS, ReactJS, Node.js
- **Frame Works:** Express.js, Bootstrap, Tailwind CSS, CodeIgniter
- **Tools/Platforms**: MongoDB, MY SQL Server, XAMPP, Postman, Replit, Figma, VS Code
- **Soft Skills**: Problem-Solving, Leadership, Adaptability

PROJECTS

Facial Attendance System with Liveness Detection | GitHub Mar 2026

- Engineered a facial extraction pipeline using a CNN and FaceNet to process 1.5s video streams into 512-dimensional embeddings.
- Executed sub-second facial authentication using MongoDB Vector Search and cosine similarity, achieving >98% matching accuracy.
- Deployed liveness detection models via ONNX Runtime, blocking 100% of spoofing attacks with under 200ms inference latency.
- Developed a live admin dashboard utilizing 3s API polling and crash-proof data parsing to render real-time attendance metrics

Tech Stack: MongoDB Atlas (Vector Search), Python, FaceNet, ONNX Runtime, OpenCV, REST API, React.js, Node.js, Tailwind CSS

MiniGram- Realtime Social Media Platform | GitHub Jan 2026

- Built a full-stack social media app with 6+ core features including authentication, CRUD posts, likes, comments, and pagination.
- Implemented multi-image uploads (up to 5 per post) with dynamic carousel rendering.
- Integrated Socket.IO for real-Time comments, eliminating manual refresh dependency.
- Developed secure session-based authentication and protected routes with strict post ownership validation.

Tech Stack: Node.js, Express.js, MongoDB, EJS, Tailwind CSS, Socket.IO, Cloudinary, Multer

Code Together: Collaborative IDE | GitHub Oct 2025

- Developed real-time collaborative editor using Yjs (CRDT) + WebSocket, enabling low-latency multi-user synchronization.
- Engineered per-room FIFO execution queue in Node.js for conflict-free concurrent code execution.
- Architected decoupled backend services (Hocus-pocus for sync, Express for execution) for scalability and modularity.
- Implemented real-time execution status broadcasting via WebSocket with REST-based code execution pipeline.

Tech Stack: React, Code Mirror, Yjs, Hocus-pocus, Node.js, Express, WebSocket, Tailwind CS

CERTIFICATES

- JavaScript Intermediate by Hacker Rank — Mar 2026
- Node.js Intermediate by Hacker Rank — Feb 2026
- Social Networks by NPTEL — Nov 2025
- Data Structure and Algorithms by Neocolab — Dec 2024

EXTRA-CURRICULAR ACHIEVEMENTS

- Led 15+ Students in Python training, boosting problem solving skills among participants, resulting in more proficient in coding.
- Boosted engagement by designing accessible and practical learning resources in Python and SQL for self-guided learners.

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering: **CGPA: 7.0** Since August 2023

Step by Step Sr. Sec. School Rajasthan, India
Intermediate: **Percentage: 69** April 2021 - March 2023

Matriculation: **Percentage: 82** April 2020 - March 2021
